

European Solar Energy Storage

Madianhe energy storage industrial park project

Overview

□The lithium battery production base with an investment of 200 million yuan officially lands in the Madianhe New Energy Storage Industrial Park, with an annual output of 84 million lithium batteries□On July 19th, the Dianbai District Government and Guangdong Sanyi New Energy Technology Co., Ltd. signed a contract for the lithium battery production base project, marking the official launch of the project in the Maodianhe New Energy Storage Industrial Park in Maoming.

Advanced energy storage equipment and material industrial park project

Vigorously develop the manufacturing industry of energy storage batteries and energy storage equipment around the national policy requirements on increasing the application of energy storage technology on the power generation side, grid side and user side; Vigorously develop Yufeng Yuguang hydrogen production industry; Based on the introduction

Construction Commences on Madianhe Renewable Resources ...

The renewable resources recycling industrial base has a total investment of 1.7 billion yuan and will feature a safety production platform with autonomous robot transfer and independent intellectual property rights.

[Total investment of 4.7 billion yuan! Two new energy projects

The projects focus on the recycling and reuse of batteries and the R& D and manufacturing of energy storage systems, aiming to build an industry chain covering the entire life cycle of batteries.

Madianhe energy storage industrial park project

The Huangpu New Energy Storage Industry Park project has been launched with an investment of about 2.1 billion yuan, which will see the construction of a first-class energy storage industrial base in the Greater Bay Area and is expected to lead to the creation of 3,000 new jobs.

?The lithium battery production base with an investment of 200

?The lithium battery production base with an investment of 200 million yuan officially lands in the Madianhe New Energy Storage Industrial Park, with an annual output of 84 million lithium batteries?On July 19th, the Dianbai District

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg

Product voltage: 3.2V

internal resistance: within 0.5
