Majuperak solar Tajikistan

Overview

Does majuperak participate in solar rooftop?

Apart from ground mounted (solar farm) solar photovoltaic (PV), Majuperak also actively participate in solar rooftop under Net Energy Metering (NEM) scheme commissioned mainly with clients under Government-Linked Companies (GLCs) to government agencies/ authorities throughout the state of Perak.

How much solar energy does Tajikistan have?

According to meteorological services, Tajikistan has between 260 and 300 sunny days a year and enormous solar energy potential. According to preliminary estimates by the Ministry of Energy, the annual potential for solar energy use is 3103 billion kWh.

What is majuperak doing in Malaysia?

By participating in the Twelfth Malaysia Plan (12MP) through the implementation of the green initiative, Majuperak is now harnessing the power of natural resources by moving towards exploring and venturing into floating solar.

Is solar energy a good investment in Tajikistan?

In Tajikistan, there are no favourable conditions for the widespread use of solar energy or for attracting investment in this sector. This is happening amid constant energy shortages and a crisis in the country's electric power system. Solar panels in Dushanbe. Photo: CABAR.asia Tajikistan is one of the most vulnerable to climate change countries.
