### Solar Manufacturing Map

This map provides information about all of the solar photovoltaic (PV) manufacturing facilities in the United States and how they contribute to the solar supply chain.

### The Bureau of Energy Resources Announces New Support to Advance Energy

At COP 29, the Bureau of Energy Resources (ENR) announced new and expanded programs to support partners around the world in deploying clean energy technologies, increasing reliable and affordable electricity supply, attracting private sector investment in energy infrastructure, decarbonizing the oil and gas sector, and empowering the next generation of ...

### DOE Transmission Interconnection Roadmap

The Transmission Interconnection Roadmap identifies solutions to enable interconnection processes to meet the growing demand for renewable energy resources from the rapid, widespread clean energy transition. Produced by the U.S. Department of Energy (DOE) Interconnection Innovation e-Xchange (i2X) and published in April 2024, this roadmap ...

## About - MAP

Over the last 15 years, MAP made over \$1 billion of investments in wind energy, utility-scale solar, and energy storage in the onshore US. MAP participated in the development of approximately 11% of all operating wind energy capacity in ...

## MAP Energy

Founded in 1989, Map Royalty Inc. is mainly involved in the acquisition and management of natural gas royalty interests in the natural gas fields of the onshore United States. Based in

Oklahoma City, Okla., the firm has included renewable energy royalty interests primarily associated with the U.S. wind power projects.

## U.S. State Clean Vehicle Policies and Incentives

The transportation sector became the largest source of U.S. greenhouse gas (GHG) emissions in 2016. Driven by increased travel demand, low fuel prices, and urban sprawl, transportation emissions grew about 23 percent between 1990 to 2019. To change this trajectory, states have utilized several types of alternative vehicle policies including vehicle GHG emissions ...

## Global Infrastructure Partners Announces Acquisition Of MAP® Energy...

MAP® Energy (MAP®) is one of the longest-standing private energy investment firms in the U.S. Founded in 1987, MAP® manages a \$1.4 billion portfolio of U.S. natural gas royalty investments and since 2005 has been an innovative investor in renewable energy projects, including the invention of the renewable energy royalty structure that has

## MAP: How Climate Change Threatens America's Energy ...

The effects of climate change -- such as heat waves, rising sea levels and more severe storms -- are already being felt across the United States. Our energy infrastructure is especially vulnerable to climate-related impacts, which can pose a serious threat to America's prosperity, national security, energy security and quality of life.

## Solar Installer

Southeast Energy Solutions is proud to have established a robust regional footprint, bringing sustainable energy solutions to homes and businesses throughout the Southeastern United States. It's Time To Become Energy Independent. Solar energy independence is not just a dream, it's a reality. With Southeast Energy Solutions,

you can make the

## State Climate Policy Maps

For years, U.S. states and regions have been addressing climate change in the absence of stronger federal action. A wide range of policies have been adopted at the state and regional levels to reduce greenhouse gas emissions, develop clean energy resources, promote alternative fuel vehicles, and promote more energy-efficient buildings and appliances, among other things.

## **Supply Chain Road Map for Offshore Wind Energy in ...**

The national offshore wind energy target of 30 gigawatts (GW) by 2030 referenced the potential benefits of establishing a domestic supply chain, including providing existing suppliers with the ability to produce thousands of ...

## MAP Energy, LLC

MAP® creates and manages diversified portfolios of high quality renewable energy and natural gas assets in the onshore United States. For over 30 years, MAP has refined a unique approach to constructing diverse portfolios of premium natural gas and renewable energy assets, including wind energy, utility-scale solar, and

energy storage, in the onshore US.

## Mark Hayes

Experienced energy investor. Focus on climate solutions, risk, and asset allocation... · Experience: MAP Energy, LLC · Education: Stanford University · Location: Menlo Park · 500+ connections

## Application for Renewal of Authorization To Export Electric Energy

1 ??· SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 et seq.).Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) ...
