

European Solar Energy Storage

Mauritania curve energy technical services llc

Overview

Can Mauritania harness wave energy?

Mauritania's 754 km coastline on the Atlantic Ocean provides a unique opportunity for harnessing wave energy. The average wave power along the coast is 17.5 kW/m, making it an ideal location for wave energy technology.

Why should you invest in Mauritania?

Investing in Mauritania can offer a wide range of opportunities, particularly in the energy sector. With major gas discoveries and large-scale renewable energy projects in development, the country is poised for significant growth in this area.

Should Mauritania invest in wind energy?

A major investment in wind energy infrastructure in Mauritania could not only provide a significant source of renewable energy for the country, but also make a significant contribution to global efforts to reduce reliance on fossil fuels and combat climate change.

Is Mauritania ready for the largest green hydrogen production project in the world?

Driven by this momentum, the country has signed a memorandum of understanding for the implementation of the largest green hydrogen production project in the world, which Mauritania intends to develop in partnership with CWP Global, an Australian renewable energy development company led by an American founder and CEO.

How will Mauritania's wind power plant affect its energy mix?

The wind power plant in the northern town of Boulenouar will also significantly increase the share of the country's energy mix. The significant share of renewable energy in Mauritania's total energy portfolio is impressive, especially compared to other countries on the continent.

What is Mauritania's strategic plan?

Mauritania, as outlined in Mauritania's ambitious three-step strategic plan for the future development of its petroleum, mines, and energy resources from 2022 to 2030.

Mauritania curve energy technical services llc

News

On February 21, 2023, the Minister of Petroleum, Mines and Energy, Abdessalam Ould Mohamed Saleh, signed an Exploration-Production Contract (CEP) for Block C2 located offshore with Shell Exploration and Production Mauritania, represented by First Vice-President William Langin.

Mauritania Energy

Mauritania boasts a strategic geographic location, spanning over one million square kilometers with a 754-kilometer coastline. Despite its predominantly arid desert landscape, Mauritania possesses a wealth of renewable energy resources (solar, wind and wave), as well as natural gas fields in its offshore territory.
