Modular routers energy distributor Sri Lanka

Modular routers energy distributor Sri Lanka

(atm8) anyone else having issues with modular routers?

Tried using modular router with an activator module, but for some reason, it doesn't work? Have tried with many different items in the buffer slot to use, but for whatever reason none have worked- have watched multiple guides on how to use them, followed their instructions and setting for the module, but it has not performed a single right click with the item in the buffer slot

[ATM 6] Wirelessly charge machines : r/allthemods

The only solution I have found is to use quantum entanglers (idk how to spell them) to pair one of the fluid/gas inputs with energy but this isn't exactly the best of solutions. Edit: nevermind found out you can use modular routers energy distribution module to do exactly this.

To ensure a better consumer experience, Hayleys Consumer has introduced its flagship store "Aspire" for all Hayleys employees, thereby extending its services across Sri Lanka via "Aspireonline.lk". Singer (Sri Lanka) PLC is the leader in Sri Lanka's consumer durables market, and is renowned for offering a wide range of top-quality

Energy Puller Module & Reverse Energy Distributor #222

It's easy to pipe energy into a router via pretty much any mod which handles energy. Will

consider a direction toggle for the distributor. Guess it makes sense, given the item distributor can do it. With an energy distributor set to pull mode it would pull the power from all 8 generators and could then output that power into a flux plug
