In Mongolia, a Quest to Democratize Carbon Credits

Staff from Mongolian climate-tech start-up URECA are installing solar panels at five households in Ulaanbaatar's ger district. The pilot project hopes to wean poor ger households from burning coal by selling carbon credits to pay for the transition to renewables. A project to install solar electricity in these homes would produce

[Renotech Solar Package Specials](#)

Introducing our exclusive solar package specials, brought to you by Renotech! Are you ready to harness the power of the sun and take control of your energy needs? We bring you unbeatable deals on cutting-edge solar panels, solar batteries and state-of-the-art inverters. While stocks last, Ts& Cs apply. For end-users only

Solar Solutions - Venseq Battery Solutions

Renotech Solar Products. Renotech Solar PV Panels. The PV cells capture the energy of the sun and convert it into electricity. Renotech Hybrid Inverter. Incorporating all of the features needed to be used for grid-supported, stand-alone or backup applications. Renotech Lithium-ion Battery.

The Renotech brand was established in 2001 as a dedicated provider of renewable energy products and services. Focused on supplying local and selected African markets, our product range includes inverters, lithium batteries, lead-acid ...

- Efficient Higher Revenue**
 - Max. Efficiency 97.5%
 - Max. PV Input Voltage 600V
 - 100% Peak Output Power
 - 240V Modules, 500V DC Input Overvoltage
 - Max. PV Input Current 55A, Compatible with High-Power Modules
- Intelligent Simple O&M**
 - IP65 Protection Degree: support outdoor installation
 - Smart I/F Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
 - DC & AC Type II SPD: prevent lightning damage
 - Battery Reverse Connection Protection
- Flexible Abundant Configuration**
 - Plug & Play, EPC Switching Under 10min
 - Compatible with Lead-acid and Lithium Batteries
 - Max. 6 Units Inverters Parallel
 - AFC Function (Optional): when an arc fault is detected the inverter immediately stops operation

Solar: A Power (full) Alternative for the Cold Chain

Many solar inverters nowadays have built-in solar charge controllers, as well as monitoring and control functions to enable grid-synchronisation. Quite often they also have an AC battery charger built-in to provide for charging of the batteries from the grid or a generator when solar energy is insufficient - this is referred to as a hybrid
