

## European Solar Energy Storage

# Montenegro cleanserve energy

## Overview

---

Does Montenegro have a national energy and climate plan?

Montenegro is still finalizing its draft National Energy and Climate Plan (NECP). Montenegro has not defined the 2030 climate target in its national legislation, nor in the draft NECP. It should align with the 2030 targets set by the Energy Community. There is a legal basis for the national inventory system.

Does Montenegro have an energy efficient home?

In 2023, the project Energy Efficient Home continued to support households to purchase heat pumps with interest-free loans. Montenegro is still finalizing its draft NECP, which must harmonize the 2030 energy efficiency targets with the 2030 targets set by the Energy Community.

How many consecutive days has Montenegro produced electricity exclusively from renewable sources?

You have recently shared the information that Montenegro has for the first time ever produced electricity for 10 consecutive days exclusively from renewable energy sources. How was that achieved?

.

Will Montenegro adopt a renewable based district heating system?

Montenegro finalized the adoption of a complete package of updated energy labelling rulebooks, as incorporated into the Energy Community legal framework by the 2022 Ministerial Council. Žabljak municipality is exploring options for establishing a renewable-based district heating system.

Why should Montenegro focus on implementing the electricity integration package?

Montenegro should focus on the transposition and implementation of the

Electricity Integration Package as a precondition for the coupling of its day-ahead market. Montenegro progressed with amendments of the Energy Efficiency Law and new labelling regulations.

How has Montenegro progressed?

Montenegro progressed with amendments of the Energy Efficiency Law and new labelling regulations. Montenegro should submit the draft NECP to the Secretariat with a targeted approach to coal phase-out. A draft Law on Information Security transposing the NIS2 Directive was drafted in 2023. It should be adopted in the next reporting period.

## Montenegro cleanserve energy

### Home Energy Storage (Stackble system)

- High Efficiency
- Easy installation
- Safe and Reliable
- Perfect Compatibility

- Product Introduction**
- Scalable from 10 kWh to 50 kWh
  - Self-Consumption Optimization
  - Integrated with inverter to avoid the compatibility problem
  - LFP battery, safest and long cycle life
  - Stackable design for easy installation
  - Capable of High-Powered
  - Emergency-Backup and Off-Grid Function
