Set Storage from internal HDD to synology NAS

Hi I'm running HA OS on a dell mini PC How can I set that all storage especially Frigate video recordings are stored on my Synology NAS instead on local HDD. Pls help to get this set up correctly Many THX Home Assistant network

storage , Frigate. As of Home Assistant Core 2023.6, Network Mounted Storage is supported for addons. Home

Varta Storage Modbus workaround

Until the Varta Storage integration (Add vartastorage integration by Vip0r · Pull Request #63736 · home-assistant/core · GitHub) is accepted, you can access the Varta Storage via Modbus. The following snippets are for the Varta pulse neo. # Modbus Varta pulse neo modbus: - name: "mb_varta" type: tcp host: 192.168.40.4 # replace with your ip of the your ...

Run out of HA Virtual Box storage

I'm running HA on windows 11 virtual box. I used 900G hdd storage because my frigate videos & photos take space very much and very fast even though I write only 1 day retain in frigate.yml. Right now, I notice frigate cameras don't show in front-end. I think my HA run out of storage. I check my storage but HA didn't allow me to show the

Getting out of auto-gen mode to storage mode and HACS

Apparently there are now three frontend modes, storage, auto-gen, and yaml. I seem to be "stuck" in auto-gen mode I have been using HACS for awhile and since I ended up in auto-gen mode I have had this issue that HACS will not automatically add resources when a repo is

installed. According to the dev resources will not be automatically added in "auto-gen" ...

Home Assistant Blue Storage Issue : r/homeassistant

Home Assistant is open source home automation that puts local control and privacy first. Powered by a worldwide community of tinkerers and DIY enthusiasts. Storage full . I have 128GB of storage on my Home Assistant Blue and it is currently at 99%. I cannot update/restart or install addons anymore, but I also can't find out where this

Second HDD

Hi everyone! I've just installed HA on a mini pc with in a primary SSD and a slave HDD. In order to do not use the SSD as the disk to store the historical data, logs, etc... I'd like to move them into the HDD. I know, it has less performance than the SSD but, you know, SSD are not really designed for high updated data changing continuously. Is there any way to do that ? it ...

Long time state storage (LTSS) custom component for Home Assistant

Long time state storage (LTSS) custom component for Home Assistant NOTE: Starting 2020-09-13 attributes are stored with type JSONB

ESS

instead of as a plain string, in addition a GIN index is created on this column by default. At first startup after updating of LTSS, migration of your DB happens automatically. Note that this can take a couple of minutes and HASS will ...

Network Storage

I have Network storage set up as a backup target, and also as a media folder, and both are working well. Am heading overseas in a week, and thought it would be cool to access a share on my NAS via the HA cloud to save carrying copies of everything (who knows what I may need), and also potentially to upload files directly to the NAS. I have the share on ...

QuestDB state storage (QSS) custom component for Home Assistant

QuestDB state storage (QSS) custom component for Home Assistant Repository: CM000n/qss: QuestDB State Storage (QSS) Custom Component for Home Assistant to store entity states inside a QuestDB. (github) QSS makes it possible to transfer state information of the Home Assistant entities simply and efficiently via InfluxDB Line Protocol into ...

How to expand / resize disk space for HAOS vm on Proxmox?

Not running Proxmox myself, but my installation is running on ESXi. I expanded my storage simply by shutting down the virtual machine, increased the size of the virtual disk and then started it back up, Home Assistant automatically claimed the extra space I had given it. 4GB RAM should be more than enough to run this, unless you use a large amount of add-ons. ...

[EKD Ampere.Storage PRO](#)

Hi All, I am running an Ampere.Storage PRO

Inverter, which is definitely a SAJ HS2 Series with some minor changes. After long research I found the Modbus Datamodel and implemented it in telegraf which streams the data into InfluxDB. To visualize the data, I am currently using a Grafana dashboard. In general, it works pretty good so far. There are a few ...

Cleaning Up Unused Files to Free Up Disk Space

I'm running HAOS on an RPi 4. Recently, the 32 GB SD card (this post isn't about if you like HA running on an SD card) filled up and corrupted my database (no big deal), so a new database was started. This set me on a quest to find all of the files which were filling it up. I found a few GB worth of Amazon package images in the custom_components and from ...

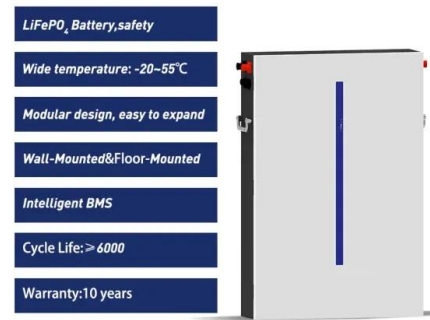

[Home Assistant Core 2023.6](#)
