

European Solar Energy Storage

Mozambique kaltimex energy

Overview

What does kaltimex energy do?

Kaltimex Energy is a company that manufactures power generation products. It offers gas engines, radial and steam turbines, and renewable energy products. The company also provides engineering, procurement, and construction (EPC), power plant automation, waste heat recovery, and other services.

What energy sources are available in Mozambique?

Mozambique has abundant energy sources available for exploitation. As of 2021, the country was ranked first in energy potential of all the countries in the Southern African Power Pool (SAPP), with an estimated energy capacity of 187,000 MW. Available energy sources include coal, hydroelectricity, natural gas, solar energy and wind power.

What is EDM doing in Mozambique?

EDM and Mozambique support the development of renewable energy projects, having launched public tenders for solar and wind projects, the country is also exploring battery storage solutions. The largest power generation plant in the country is the Cahora Bassa hydro dam, operated by the government owned Hidroeléctrica de Cahora Bassa (HCB).

Who visited kaltimex Energy Group's Tawi Tawi power plant?

Visit by Lt. Gen. Galido to Kaltimex Energy Group's Tawi Tawi Power Plant. On February 27th, 2023, Lt. Gen. Galido, the commander of the Western Mindanao Command (WESMINCOM), and Brigadier General Romeo T. Racadio, the 2nd Marine Brigade commander, visited Kaltimex Energy Group's 8 MW Tawi Tawi Power Plant.

Why is Mozambique a major energy exporter?

Mozambique is a net exporter of energy to countries in the Southern African

Power Pool (SAPP) – South Africa being the largest importer. The government view energy exports as a key driver of the Mozambican economy, having passed a new electricity law that simplifies permitting and encourages IPPs activities.

How much solar energy does Mozambique have?

Mozambique has a potential solar energy yield estimated between 1,785 and 2,206 kWh/m²/year, resulting in a solar energy potential of 23,000GWh/year. In August 2019, the first grid-ready solar power station, the 40 megawatts Mocuba Solar Power Station, in Mocuba District, Zambezia Province, achieved commercial commissioning.
