## Hybrid supercapacitors receive UL certification

Musashi Energy Solutions is developing an energy storage systems for UPS to meet the demand for getting higher power in data centers,

due to the global increase in data volume. By taking advantage of the high power output and long life characteristics of the hybrid supercapacitor that has acquired UL810A certification, the 1MW-class energy

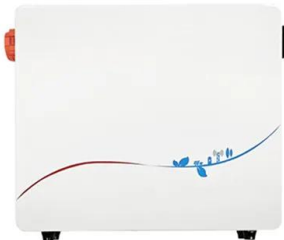

## 'Super' Energy Storage for AI Data Centers

Learn more about Musashi's supercapacitor energy storage for data centers. Video used courtesy of Musashi Energy Solutions . Several companies are developing solutions to mitigate AI's impact and balance the grid's load demands. Flex and Musashi Energy Solutions are partnering to assist grid operators in managing AI-caused power fluctuations.
