### Adden Energy: Harvard University Spin-Off Secures \$15 Million ...

Adden Energy has developed lithium-metal solid-state battery technology. To scale production and bring this technology to car manufacturers, the company has raised \$15 million in a Series A round led by At One Ventures. Primavera Capital Group, Rhapsody Venture Partners, and MassVentures also participated. The funding will be used to construct a roll-to ...

### Adden Energy was co-founded in 2021 by Li, along with Willia.

Adden Energy was co-founded in 2021 by Li, along with William Fitzhugh, PhD, and Luhan Ye, PhD, both of whom contributed to the development of the technology as ...

**Adden Energy Secures \$15M to Advance EV Batteries**

Adden Energy's next-generation battery technology combines lithium metal and fast charging capabilities to address the limitations of current EV batteries. The company's solid-state batteries, originally developed at Harvard, utilize a self-healing separator to eliminate lithium dendrite growth--a primary cause of battery

failure.

## Technology -- Adden Energy

Adden Energy's technical advances have spanned materials design and synthesis, in-house solid-electrolyte development, and novel cell designs. These combined material and device innovations have enabled the demonstration of ...

## About -- Adden Energy

Adden Energy, founded by a team of scientists at Harvard University, is developing and scaling up a brand-new type of solid-state battery. With demonstrated charge times as low as 3 minutes ...

## **Adden Energy**

Adden Energy is scaling up a new type of solid-state battery, initially developed by a team of scientists at Harvard University, to commercially relevant cell sizes. With demonstrated charge times as low as 3 minutes and capacity retention for over 10,000 cycles in a lab-scale cells, Adden Energy's scaling of this technology would contribute

## Adden Energy

Adden Energy has 5 employees at their 1 location. See insights on Adden Energy including office locations, competitors, revenue, financials, executives, subsidiaries and more at Craft.

## Is Adden Energy the Next Big Energy Stock?

Adden Energy was founded in 2021 by a team of Harvard scientists, alumni, and venture capitalists, led by Professor Xin Li. In 2015, doctoral students William Fitzhugh and Luhan Ye began the initial research and development on solid-state batteries at Li's group at Harvard's John A. Paulson School of Engineering and Applied Sciences.

## Adden Energy Secures \$15M to Scale Next-Gen Lithium-Metal

...

Adden Energy raises \$15M to scale lithium-metal solid-state batteries.. Self-healing technology eliminates dendrite formation and increases safety.. The batteries charge in under 10 minutes and offer up to 10x the lifetime of current EV batteries.. Funding will support the construction of a pilot production facility in Waltham, MA.

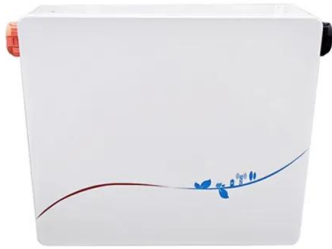

## Adden Energy Raises \$15M to Expand Accessibility of Electric

...

Adden Energy's mission is to enable everyone to adopt electric vehicles by reaching parity or better with the internal combustion engine in

every consumer-facing dimension, including price.
