

## European Solar Energy Storage

# National energy storage industry chamber of commerce

## Overview

---

What is the Energy Storage Association?

The U.S. Energy Storage Association is the leading national voice that advocates and advances the energy storage industry to realize its 100 GW by 2030 goal, resulting in a better world through a more resilient, efficient, sustainable, and affordable electricity grid.

What is the National Energy Storage Summit virtual Pitchfest?

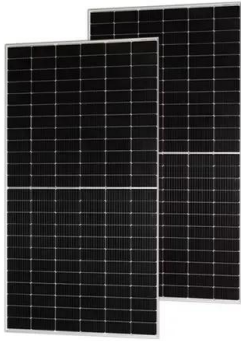

The National Energy Storage Summit Virtual Pitchfest offers all conference attendees a unique opportunity to share their innovative ideas with an audience of researchers, and others from across industry, government, regulators and policy-makers, and the news media.

Where can I find information about energy storage?

Please visit [cleanpower.org](http://cleanpower.org) for more information. The U.S. Energy Storage Association (“ESA”) is the national trade association dedicated to energy storage, working toward a more resilient, efficient, sustainable, and affordable electricity grid—as is uniquely enabled by energy storage.

### LBNL

This VIRTUAL public summit will convene and connect national and regional thought leaders across industry, government, communities, and the research enterprise to catalyze solutions and partnerships around specific challenges to America's energy storage future.

### Showcase

To illuminate this ongoing work and catalyze partnerships and innovative solutions among industry, national labs, academic researchers, and beyond, participants will have the opportunity to spotlight their capabilities, IP, and start ...

### First-Ever LDES National Consortium Annual

As long duration energy storage becomes

increasingly vital for meeting clean energy goals, this workshop emphasized collaboration across sectors to tackle deployment challenges and position the U.S. as a global leader in the LDES market.

### Pitchfest

Presenters are challenged to pitch their best idea or solution related to advancing energy storage (science, technology, policy/regulation, markets, etc.) in three minutes or less using limited visual aids.

## Showcase

To illuminate this ongoing work and catalyze partnerships and innovative solutions among industry, national labs, academic researchers, and beyond, participants will have the opportunity to spotlight their capabilities, IP, and start-up companies in an Energy Storage virtual showcase.

## Nation to become a global energy storage powerhouse

China's energy storage industry is set to experience significant growth through 2027, fueled by a combination of growing market demand and supportive government policies, according to industry experts and company executives.

## About the Energy Storage Association , National Trade Group

Our organization represents a broad spectrum of energy storage technologies, including mechanical, thermal, electrochemical and pumped hydropower. Every day we act on behalf of our members and the broader energy storage industry to accelerate markets, connect our members and educate stakeholders.

## LBNL

This VIRTUAL public summit will convene and connect national and regional thought leaders across industry, government, communities, and the research enterprise to catalyze solutions and partnerships around specific challenges to ...

## CESEC2025 Third International ESS Conference Grandly Opens

It brings together government departments, academic research institutions, enterprises, and industry associations to discuss the latest advancements and future trends in energy storage technology, aiming to promote the green transformation and sustainable development of the global energy industry.
