# National portal for rooftop solar Lebanon

## Overview

---

Are rooftop solar panels a good idea for Lebanon?

Rooftop solar panels are offering the promise of a more normal way of living in Lebanon amidst an unsteady electricity supply – for those who can afford it.

What is the national portal for rooftop solar?

The Prime Minister launched the National Portal for Rooftop Solar to make the subsidy application and payment process easier for individual consumers and households. Now, instead of manually filling and submitting a form with your local DISCOM and following up endlessly for updates, you can use the new online mechanism for smoother processing.

How do I Register on the national portal for rooftop solar?

Here are the steps for registering on the National Portal for Rooftop Solar: 1. To register on NP, you'll need the following: - Your electricity bill - An active 10-digit mobile number - An active email ID - You'll also need to download the SANDES app on your mobile. 2. Start by visiting the registration page of the National Portal. 3.

What is the National Solar portal?

The main goal of the National Solar Portal is to make more people put solar panels on their roofs. This way, we use less electricity from the big power plants. The website also helps with applying for solar panels and tells you about new solar programs and government benefits for using solar energy. 1.

Can rooftop solar help in times of crisis?

The dramatic rise of rooftop solar in Lebanon indicates it can play a big part in helping people secure electricity in times of crisis. The technology has provided a lifeline for many in less than ideal circumstances in the country, allowing a semblance of normality – at least for those who can afford it.

## How to get money for rooftop solar project?

The Ministry of New and Renewable Energy (MNRE) made a special website called the 'National Portal for Rooftop Solar. You can do everything online, from sending in your application to getting money for solar projects. You can visit this website at

- 
**Efficient Higher Revenue**
  - Max. Efficiency 97.5%
  - Max. PV Input Voltage 600V
  - 100% Peak Output Power
  - 2 MPPT Trackers, 150% DC Input Overloading
  - Max. PV Input Current 15A, Compatible with High Power Modules
- 
**Intelligent Simple O&M**
  - IP66 Protection Degree: support outdoor installation
  - Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
  - DC & AC Type II SPD: prevent lightning damage
  - Battery Reverse Connection Protection
- 
**Flexible Abundant Configuration**
  - PFC & PFC, EPS Switching Under 20ms
  - Compatible with Lead acid and Lithium Batteries
  - Max. Current Inverter Short-Circuit
  - ARC Function (Optional): when an arc fault is detected the inverter immediately stops operation
