### Off-grid living in New Brunswick

The owners decided to go off-grid because the ability to sell power in New Brunswick was not quite there. They wanted power independence so that they would no longer suffer from grid down situations like hurricanes and other weather-related power outages. The owners also care about the environment and want to reduce their impact as much as

These investments may be negatively impacted by industrial accidents; natural phenomena; changes in fuel and power costs and potential fuel and power shortages; shortages of and cost of supplies, labor costs, shortages or strikes, civil

unrest; reduced availability of renewable energy sources; slowdowns in new construction; and threats of

## Canada unveils funding for 670MW wind projects

Natural Resources Canada's electricity predevelopment programme is providing C\$1.3m to NB Power for the development of a reliability inter-tie between New Brunswick and Nova Scotia - the first phase of a modified Atlantic Loop. This is complemented by C\$10.6m from the strategic interties predevelopment programme.

## Incentives

Any commercial building within the province of New Brunswick can receive up to \$3,300 towards evaluations for energy efficiency upgrades, and a maximum of \$100,000 towards energy retrofitting project costs. Projects must have defined electrical savings and meet other criteria before they are eligible for this program.
