Ncr energy Namibia

Overview

Who is Namibia Energy Corporation?

Namibia Energy Corporation (NEC) is a dynamic global oil and gas industry player founded by the renowned Brazilian geologist Dr. Marcio Rocha Mello, PhD. Committed to innovation and excellence, NEC is dedicated to responsibly explore Namibia's oil resources, focusing on skill and technology transfer to enhance local capabilities.

Can Namibia generate energy from renewable sources?

With ample sunshine and wind resources (on the coast), Namibia has the capability to generate significant energy from renewable sources.

Can Namibia become a net exporter of energy?

Over the long-term, the government and NamPower have committed to making Namibia energy self-sufficient (and eventually a net exporter of power) by building new domestic generation capacity. NamPower has made some progress in efforts to increase its generation capacity.

Does Namibia have a solar power plant?

The government, the ECB, and NamPower have all expressed interest in grid-connected solar and wind renewable solutions, and in May 2015, Namibia inaugurated its first-ever solar power plant – a 4.5 MW plant – which represents one percent of the country's current production of energy.

Why is NamPower a major investment in Namibia's electricity network?

“NamPower welcomes the financing approval of the project, as this is one of the major strategic and crucial investments towards Namibia's electricity transmission network. NamPower will be able to maintain pace with evolving and increasing electricity needs of the country.

Why is Namibia not getting enough electricity?

Namibia's domestic electricity supply has failed to keep pace with rising demand, and Namibia generates less than half of the energy it consumes.
