## Overview

---

What percentage of Nigerians have electricity access in 2022?

Nevertheless, a large share of Nigerian citizens remains excluded from electricity access. In 2022, just over 60 percent of Nigerians had access to electricity, leaving about 40 percent of the inhabitants in the dark. Discover all statistics and data on Energy sector in Nigeria now on [statista.com](https://www.statista.com)!

Why does Nigeria have a low per capita energy consumption?

Nigeria, with a population of over 190, 000, 000 people, has a per capita energy consumption far below what is prescribed for meaningful and sustainable development. This is not necessarily due to lack of demand but lack of means to meet the energy demand.

Is lithium a new frontier for mining in Nigeria?

Growing demand for the lithium used in batteries for electric vehicles and energy storage has created a new frontier for mining in Nigeria Workers stand at an illegal lithium mine in Paseli, Nigeria, Tuesday, Nov 5, 2024. (AP Photo/Sunday Alamba)
