Overview

What is MOVEit's solar container?

MOVEit's solar container is a solution for mobile solar energy. Images © MOVEit Polish enterprise MOVEit Power has developed a novel and groundbreaking solution to the many situations in which quick and easy power is needed but the facility for a power station or connection to mains power is not possible.

What is a self-unloading mobile solar container?

Self-unloading mobile Solar Container. Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work.

What is a mobile solar container?

Mobile Solar Container is also a great storage option for PV panels while not in use. Automatic hydraulic systems. It wouldn't be possible to create such a convenient system without the highest quality hydraulics. The entire system is designed by our engineers with long-standing experience in special mobile constructions.

Why should you choose a 20' mobile solar container?

A huge solar area in a 20' Mobile Solar Container gives you really significant power output. Despite its size, it is easy to fold and transport to any location with a level piece of ground. Adjustable angle of solar panels. In order to improve PV efficiency, the frame is designed in a way to enables an adjustable angle.

Where can a mobile solar container be shipped?

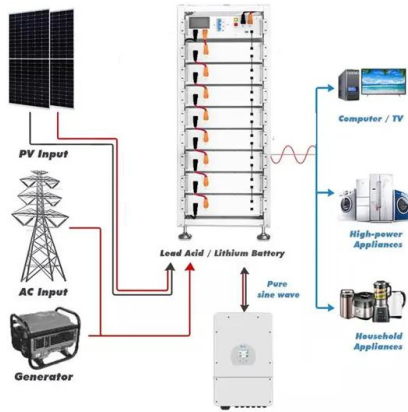

You can easily ship it to any location in the world. In order to improve container mobility, we recommend additional container lifting jacks. Mobile

Solar Containers open up new possibilities in areas with limited access to electricity. Easy transport combined with ease of use makes it a perfect solution to satisfy energy needs in remote areas.

Why should you choose a mobile solar container?

Thanks to its robust hydraulics containers are always ready to unfold the panels within minutes. Convenient levers make it even easier to operate for only one person. Mobile Solar Container is also a great storage option for PV panels while not in use. Automatic hydraulic systems.
