### How To Size Your Off-Grid Solar Power System

For those who live in isolated areas that lack the infrastructure, off-grid solar might be a necessity. Going off the grid means you keep all the power you generate, and there's no interruption in service when the power grid fails. However, you'll need to consider some important factors if you plan on building an off-grid PV system.

### What Are the Best Batteries for Solar Off Grid?

We've created this short battery guide to help you on your quest to disconnect from the grid! Below, we go over the main types of battery technology for off-grid solar installations, how to calculate a battery's long ...

### Off Grid Solar Batteries

Greater power capacity due to 80% DoD. As these can be discharged down to 80% you get LOTS more usable power. For example a 48V bank (typical for most systems) will give you 8.14kWh of usable power compared to 4.9kW of same size lead batteries at a 50% Dod and even more than old AGM or Gell batteries set at 30% DoD.
