Oman Convention And Exhibition Centre And Totalenergies ...

Since early 2025, the project has been operational, providing the venue with sustainable solar energy. The contract for this initiative was finalized in March 2024, and construction swiftly followed.

Oman Launches Its Largest Solar Rooftop Project

The initiative will see the installation of a 3.5 MW solar rooftop system at the seafood canning plant of International Sea Food Company SAOC (Simak), located in Duqm SEZ, Al Wusta Governorate.

TotalEnergies, OCEC Commission Solar Rooftop Project In Oman

In addition to generating around 25% of OCEC's total energy needs, the PV modules offer added benefits such as lowering indoor temperatures by providing shade and protecting the roof from direct UV and rain exposure, contributing to further energy savings.

51.2V 300AH

Oman rooftop waterproof energy storage

The recent Memorandum of Understanding (MOU) inked between Nafath Renewable Energy and Takhzeen, a subsidiary of ONEIC, is for renewable energy storage solutions across Oman, particularly targeting underserved rural areas.

Oman rooftop insulation energy storage

Warm and cold loft insulation solutions are appropriate for pitched roofs. While warm deck, cold deck, or inverted roof insulation is available for flat roofs. A professional will be able to help you decide which type of insulation material is best for your property.

TotalEnergies and OCEC officially commission a landmark solar rooftop

Many events taking place at the OCEC will be benefiting from this new initiative, including the upcoming beneficiaries is Oman Sustainability Week, set to take place from 12-15 May 2025, which will be partly powered by this renewable

energy source.

Oman: First major roof-top solar project launched at OCEC

Commissioned by TotalEnergies, a global integrated energy company that produces and markets energies: oil and biofuels, natural gas, biogas and low-carbon hydrogen, renewables and electricity, the solar project is now fully operational and powering the venue with clean solar energy since early 2025.

Oman Launches Its Largest Solar Rooftop Project

The initiative will see the installation of a 3.5 MW solar rooftop system at the seafood canning plant of International Sea Food Company SAOC (Simak), located in Duqm SEZ, Al Wusta Governorate.

First large-scale energy storage project advances

It is set to be the first energy storage project of its kind in the Middle East based on CO2 battery energy storage technology. A site has been identified for the establishment for this project."

Oman's first rooftop solar PV I-REC registration announced

Sultanate of Oman to register a rooftop solar photovoltaic (PV) power system with the I-REC Standard Foundation's international renewable energy tracking system.

Oman rooftop renovation energy storage

As the residential sector is the largest consumer of electricity in Oman, we develop a novel approach, using houses in Muscat as a case study, to assess the potential of implementing roof-top solar PV/battery technologies, that operate
