### LAC PANAMA

The introduction of a state policy in 2023 to subsidize the consumption of liquid fuels used in national transportation accentuates concerns regarding commodity prices--a challenge Panama faces as it relies entirely on imported fuels.

### Panama Energy Storage Subsidy Policy

The government subsidy will cover 60% of the

cost of installing a residential energy storage system up to a maximum of 50,000 kroner or \$5,600. According to Renewable Energy World, the credit applies to the battery, wiring, control systems, smart energy hub, and installation work for homes with rooftop solar systems.

## The energy sector of Panama: Climate change adaptation ...

This report identifies the risks to energy infrastructure in Panama and explores various ways to adapt existing and new infrastructure to meet the challenges of climate change.

## Panama to Include Storage in Energy Auctions

While energy storage is not mandatory, it may be included if viable, as it enhances service quality and supports transmission networks. Urriola emphasized Panama's transparent regulatory framework, stating: "Improvements in the sector must be self-financed through long-term investments."

## The Panama Energy Storage Battery Project: Powering a ...

With 42% cost reduction in battery storage since 2018, Panama's model proves emerging markets can leapfrog traditional power infrastructure. It's like skipping landlines to go straight to smartphones - but for energy grids!

## Panama energy storage industry

Panama has initiated a groundbreaking 500 MW tender auction encompassing renewables and energy storage, marking the first such auction in Central America to include storage.
