Papua New Guinea liam f1 uwt for sale

Overview

What is a Liam F1 mini urban wind turbine?

The Liam F1 Mini Urban Wind Turbine is a small wind turbine with a diameter of 0.75 meters which weighs approximately 32 kilograms. Due to its size and weight it is (like the Liam F1) suitable for installation on almost every roof and wall. Due to its smaller size the mini will generate approximately 1/4 of the yield of a Liam F1.

Does Archimedes Liam F1 mini wind turbine ship internationally?

The Archimedes Liam F1 MINI Urban Wind Turbine Shipping within three days after payment is received Quality support by phone or in person for all of our products We are happy to ship orders internationally, but for faster service (and potentially less expensive shipping options), you might try one of our international distributors.

What temperature does a Liam F1 generator work?

The Liam F1 was tested in Korea at a temperature of -20 ° C. The temperature at which the Liam can do its job depends not so much on the outside temperature, but the temperature of the generator. The magnets that are in the generator lose their operation at 80 ° C. Temperature is therefore expected to pose no problem.
