Vaisala reinforces market leadership position with new WindCube service enhancements New service enhancements include extended warranty period and complimentary online training to increase customer value and support Strengthening its commitment to innovation and customer-centric solutions in the wind energy sector, Vaisala today announced service enhancements to ...

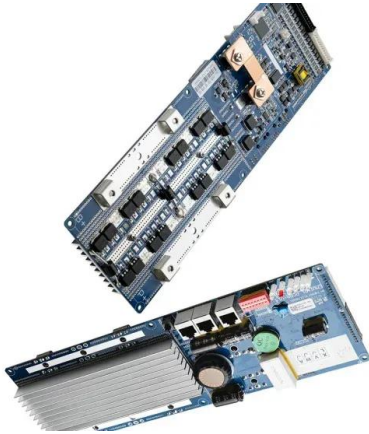

### Custom sensor solutions

PES: Can you expand on the measurement challenges facing wind farms? TH: Maintenance on offshore locations is extremely costly. This is a very big opponent to wind turbine energy developing into a durable renewable energy source. Reliable monitoring systems can prevent frequent maintenance and also extend the wind turbine's lifetime.

## Nordex Group to offer N169/5.X turbine for the US market

Solarstrom Grebs GbR to convert unusable land into 922 kWp community solar installation using SolarEdge · The new solar installation will provide clean energy for up to 250 local households, with a forecasted reduction in CO2 emissions by approx. 360 tonnes a year · Already under construction, the installation is expected to be completed in Q1/25 · SolarEdge ...

### Exploring wind solutions

In an insightful conversation with Roberto Pasqualini, Wind Business Development Senior Manager at Bonfiglioli, we explore the company's innovative solutions showcased at WindEnergy 2024, including advanced pitch and yaw drives, synchronous servo motors, and its commitment to sustainability in the wind sector. PES: I'm very pleased to be speaking with you today Roberto ...

## Everyone's talking about energy transition

Whether they will be reached, missed, or overshoot depends on multiple factors, most of which concern policymakers and the energy sector itself. At the end of 2023, the EU increased the binding renewable energy target for 2030 to 42.5%, encouraging countries to aim for 45%. The US has a goal of 80% of renewable energy generation by 2030.
