Why did you choose energyplex?

Thanks to the Energyplex team, the process was so easy to understand with which size solar system I needed to get my bills lower. The system has saved me so much heart ache when opening quarterly bills and is on track to paying for itself within 2 years. Wendy from Gawler.

Who recommended energyplex for a 5kw Solar System?

We were recommended Energyplex who had installed a 5kw solar system 6 years previously on my in-laws house. We went with a Fronius 5kw made in Austria with REC made in Singapore panels as suggested to us by the electricians. With 10 year warranty on inverter, 25 year warranty on panels. ### [Australian TV on plex? : r/PleX](#)

about a year or more ago, it used to be built-in with Plex, but they had to change XMLTV providers, and Australia got the 'boot' along with a number of other countries. IceTV have been around for over a decade so it's reliable, if expensive, but it's helpful since they tag shows/content quite well, and the setup is pretty easy to deal with.

## Maceo Plex

"Solar detroit" is really my best emotion of the year 2015. Techno ? Probably, but melodic techno would be more appropriated. This gem remains, of course, the sounds of Laurent Garnier's "acid eiffel" 22 years before. The break between the 2 exploding parts of the track put me in a trance. This is sooooo good ! Maceo Plex is a genius. Really.
