# Portable pv container quotation in Australia 2025

## Overview

---

How long does it take to ship a container to Australia?

Reach out today and let us help you with your container shipping needs to Australia. How long does it usually take to ship a container from the US to Australia?

The transit time varies based on the shipping route and mode. Generally, it takes about 25-35 days for a container to reach Australia from the US via sea freight.

How do I get a container shipping quote online?

With Quick Quotes, you can generate an online container shipping quote in just 30 seconds. All you need is access to our Online Business Suite to get started. Find competitive ocean and inland rates to 600 ports worldwide. Select from multiple container types and commodities including dangerous goods cargo.

What is the ultimate portable power station?

This is the ultimate portable power station – a 20 foot container decked out with full off grid power equipment. Includes a large Victron Quattro 10kVA inverter, 10kWh lithium batteries and 4.95kW of Solar installed on the roof with slide out & folding Solar panel mounting for easy transport and easy setup on-site.

Can I ship personal items in a container to Australia?

Yes, most shipping companies offer tracking services. You can use the tracking number provided to monitor your container's location and progress online. This feature adds transparency and helps in planning for its arrival. Can I ship personal items in a container to Australia, and are there any restrictions?

Yes, you can ship personal effects.

Why should you choose a container for a remote worksite?

Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian conditions. Fully customisable, they can include insulation, ventilation, secure access points, and weatherproofing to keep your equipment safe and operational.
