What is Portugal's commitment to photovoltaic energy?

Portugal's commitment, as underscored by Decree-Law No. 162/2019, facilitates the adoption of PV technology, allowing residents and businesses alike to tap into the sun's inexhaustible energy. Why Photovoltaic Energy?

This innovative approach to energy generation is about transforming how we consume energy.

Why is solar energy a good bet in Portugal?

Firstly, why is solar energy in Portugal an excellent bet?

Because Portugal is one of the countries in Europe with the greatest availability of solar radiation. Our country has 2,500 to 3,200 hours of sunshine per year, an average of 4 to 6 hours in winter and 10 to 12 hours in summer.

When will small scale solar installations come to Portugal?

In addition to tenders for large scale power plants, Portugal has set a framework for the installation of small scale rooftop solar installations which came into force in January 2020.

How much solar energy does Portugal need?

(Updated October 2024) Solar energy is becoming a more important part of the Portuguese energy mix. Solar installed capacity reached 1.03 GW by the end of 2020, accounting for 3.6 percent of the total production of power. Portugal established a target of 6.4 gigawatts of installed capacity by 2023, with a goal of 9 gigawatts by 2030.

Why should you choose malogica solar?

Malogica Solar is dedicated to guiding its clients through these processes,

making the transition to solar energy as smooth as possible. As Portugal continues to lead by example in the renewable energy sector, Malogica Solar remains committed to empowering its clients with sustainable, efficient, and legally compliant photovoltaic solutions.

What is Portugal's energy transformation?

Portugal's transformation is more than just about energy production; it's a narrative of resilience, innovation, and community spirit. As the country forges ahead, its commitment to renewable energy serves as a powerful reminder that a brighter, greener future is possible, and it begins with each of us.
