TriPower is the successor in interest to Merrico Resources, Inc., formerly owned and operated by the Merrick family of Oklahoma.

WORKING PRINCIPLE

Nuclear Power in Jordan

Jordan imports most of its energy and seeks greater energy security as well as lower electricity prices. It had been planning to build a 2000 MWe nuclear power plant for operation by 2025, to provide nearly half its electricity, but is now considering the use of small modular reactors instead. Jordan has significant uranium resources, some in phosphorite ...

Jordan shows impressive renewable power resources

Jordan's renewable energy production grew 153.1% from 2015 to 2020. Yet Jordan's energy imports barely dropped during the same time period from 98% of its total supply to 96%. A chart of Jordan's renewable capacity in 2022 showed that 75% of its renewable power came

from solar energy and 24% came from wind energy.
