Powersafe sbs 100f battery Israel

Overview

What is a powersafe sbs-100f battery?

The PowerSafe™ SBS-100F battery utilizes unique and proven technology to provide superior performance with an extended service life in compact and energy dense configurations. PowerSafe SBS batteries are manufactured to the highest international standards and are ideal for reliable use in all wireless and fixed-line communication applications.

What are powersafe® SBS batteries?

Manufactured to the highest international standards, PowerSafe® SBS batteries offer outstanding performance in both float and cyclic applications. The high energy density of these batteries makes them ideal for system upgrades or reduced installation footprint, while still delivering dependable backup protection.

What is the EnerSys powersafe sbs-100f front terminal Telecom battery?

Have a product question?

Ask us High Tech Battery Solutions features the EnerSys PowerSafe SBS-100F front terminal telecom battery, this branding battery range utilizes unique and proven technology to provide a superior range of valve-regulated batteries (VRLA) with an extended service life in compact and energy dense configurations.

What is a powersafe SBS 100F front terminal monobloc?

Powersafe SBS 100F Front Terminal monoblocs retain the benefits of Thin Plate Pure Lead technology such as long life, high energy density superior shelf life. Alpine Power Systems is an approved platinum distributor of EnerSys products. Powersafe SBS 100F General Specifications:.

Where are powersafe® batteries marketed?

PowerSafe® products are marketed under the SuperSafe® brand in the following specific countries - India, Indonesia, Malaysia, Singapore, Thailand, Australia and New Zealand. Featuring advanced Thin Plate Pure Lead (TPPL) technology, PowerSafe SBS batteries deliver long life, high energy density and superior shelf life for telecommunications.
