Overview

How many PV projects are there in Turkey?

The ministry said 67 domestic and foreign companies submitted 146 project proposals, but officials selected only six projects ranging from 40 MW to 385 MW. The selected PV plants will sell power to the Turkish grid at \$0.0325/kWh over a 20-year period.

How much does a solar project cost in Turkey?

Turkey has awarded 800 MW of solar capacity in its latest PV tender, with the final price set at \$0.0325/kWh. The authorities selected six projects ranging from 40 MW to 385 MW. Turkey's Ministry of Energy and Natural Resources said it has allocated 800 MW of PV capacity in the YEKA GES-2024 tender.

Is Turkey a powerhouse in the solar market?

Turkey's ambitious goal to increase renewable energy's share to 50% by 2030 positions it as a powerhouse in the global solar market. Thanks to its favorable climate and growing infrastructure, Turkey is home to several cutting-edge solar panel manufacturers.
