Notre présence à Mayotte

Activités. À Mayotte, Albioma exploite un parc photovoltaïque d'une capacité installée de 15,3 MWc. Ses centrales sont toutes implantées dans des zones sans conflit d'usage, comme celle du marché de Mamoudzou qui est, avec ses 725 KW de panneaux solaires, la plus puissante installation en toiture de l'île. En lien avec les objectifs fixés par la Programmation ...

[1.12] Real Solar System

REAL SOLAR SYSTEM 1.12 License: CC-BY-NC-SA Intention: This mod aims to transform the Kerbol System into the real solar system which we live in and conduct realistic space exploration. The orbits are accurately tuned to resemble the real life counterpart planets and also feature their

Why Go Solar

Why Go Solar WHY GO SOLAR Solar energy offers an excellent opportunity to cut energy costs and boost sustainability for homes, businesses, agricultural operations, and government institutions. By transitioning to solar power, you can reduce or eliminate your electricity bills while contributing to a cleaner, renewable energy future. This guide will help you understand the [...]

[Puerto Real Solar PV Park, Spain](#)

Puerto Real Solar PV Park is a ground-mounted solar project which is spread over an area of 250 hectares. The project generates 204,000MWh electricity and supplies enough clean energy to power 30,000 households, offsetting 175,000t of carbon dioxide emissions (CO2) a year. The project cost is \$113.651m.

Volumetric clouds + RSS Reborn are a game changer

Start with a clean (ish) rp-1 express install. Install blackracks volumetric clouds next, letting it overwrite files as it needs to. Then delete the visual packs in your gamedata folder, the ones to delete are mentioned in the install guide.

what's better rss or ksrss? : r/RealSolarSystem

KSRSS is the same experience as stock KSP really and you can use stock parts. RSS is a complete overhaul and means you cannot use stock parts because they'd be terribly balanced for an Earth-sized planet.
