

European Solar Energy Storage

Renewable power partners South Africa

Overview

Who owns rifuwo Energy Partners?

We are fueling the movement towards a universal use of clean energy. Rifuwo Energy Partners ('REP') stands as a black-owned, controlled, and managed Independent Power Producer ('IPP'), specializing in investments in renewable and clean energy projects. The majority ownership of REP, amounting to a 58% stake, is held by Mathaholo Investment Holding.

Who is Energy Partners power?

Energy Partners Power constructs and operates world-class sustainable power solutions across Africa in the commercial and industrial sectors. Our installed solar capacity to date is in excess of 100 MWp for many of Africa's largest sub-Saharan companies - including the biggest industrial rooftop PPA solar system in Africa.

What is EDF renewables doing in South Africa?

EDF Renewables in South Africa is currently leading the construction of almost 1,2 GW of low carbon power generation capacity in the country, including 763 MW wind power, 355 MW solar PV and 75 MW of battery storage.

How can South Africa contribute to the energy transition?

Bertrand Bouvet, the managing director at TotalEnergies Renewables South Africa, said: "We are pleased to launch these major renewable projects that support Air Liquide and Sasol with a supply of green electricity. This will also contribute to South Africa's energy transition by increasing its share of renewables and gas as an alternative to coal."

What services does power partners offer?

Power Partners provides high quality engineering services in the building environment which include electrical engineering, mechanical engineering, electronic engineering and renewable energy solutions. Power Partners also

owns and operates long-term commercial solar photovoltaic (“PV”) installations with direct electricity off-take agreements.

Why is Energy Partners outsourced?

Our outsourced model allows our clients to free up capital and reduce risk to grow their businesses. Energy Partners focuses on delivering value and reliability to our clients via our teams of skilled engineers, installation crews and trusted partners. Dec 22, 2022 | Power, Refrigeration, Steam
