This post provides a comprehensive overview, covering everything from the initial solar panels installation costs to the benefits and future of solar energy in Pakistan.

In 2025, the cost of solar panels in Pakistan is subject to variations based on wattage, distributor, and the prevailing exchange rate. Therefore, understanding a price range is more practical than relying on fixed figures.

Installation costs range between 25,000 and 40,000 PKR. Thin-film solar panels are significantly cheaper, but homeowners typically don't install them. However, commercial installations do use them, with costs ranging from 15,000 to 25,000 PKR.
