

European Solar Energy Storage

Retractable solar panels quotation in Mauritius 2025

Overview

Are solar panels a good investment in Mauritius?

Tax Incentives: In Mauritius MRA offers tax credits to encourage the adoption of solar energy. These incentives can help reduce the upfront cost of installing solar panels, making them more financially attractive. **Low Maintenance:** Solar panels are relatively low maintenance.

Who is gosolar & what is it doing in Mauritius?

With over 2 MW of solar commercial rooftops projects in the pipeline, GOSOLAR is emerging as one of the active players in the renewable energy sector in Mauritius. GOSOLAR has already commissioned numerous residential PV systems under the SSDG scheme, 160+ kW systems under the MSDG scheme and off grid systems.

How long do solar panels last?

Modern solar panels are durable and can last for 25 years or more. **Energy Storage:** By combining solar panels with energy storage solutions like batteries, you can store excess electricity generated during the day and use it during the night or during power outages, increasing your energy independence further.

Do solar panels increase resale value?

Increased Property Value: Solar panels can increase the resale value of your home or business property. Many homebuyers and commercial property investors are willing to pay a premium for properties with solar installations because they offer reduced energy costs and environmental benefits.

What is Solar Photovoltaic Rebate scheme?

This new CEB scheme for Small and Medium Enterprises (SME) will be opening soon. The Solar Photovoltaic Rebate Scheme will help SMEs to produce electricity using solar photovoltaic technology. The scheme will operate on the

net metering principle which will allow eligible SMEs to produce electricity solely for their own consumption.
