1~25W 15-90V DC Emergency Conversion Kit for LED Panel Lights

Battery type: Ni-Cd AA1000mAh,12V; Battery dimension (mm): 140mm×50mm×15mm; Ip rating w/o casing: 20; Ip rating w casing: 67; Led indicator: f5mm Green LED with 300mm Line,26# Encasing Dimension: 200mm×100mm×33mm

Emergency Battery Packs For LED Lighting

Sanforce emergency lighting battery packs are environment-friendly and are certified by leading certifying authorities like the CE. Fully recyclable, they have higher load capacity and charge holding capacities and come with a warranty ...

A Technical Guide To Advanced Emergency Lighting Solutions

Self-Contained (SC): A self-contained emergency luminaire has its own battery. The main lighting circuit will continue to charge the lightbulb under normal conditions even if the power source is cut off and the battery takes over. Central Battery: A central battery system features 'slave' emergency luminaires with no onboard battery. If the

4~70W 1000V Dimmable Fluorescent Light Emergency Ballast

Integrated with a Ni-Cd or Ni-Mh or Lithium battery and emergency inverter no additional packaging and installations are required. Sanforce dimmable fluorescent light emergency ballast runs on the emergency output power of 4W to 8W. Suitable for all fluorescent tubes and CFL lamps, this emergency ballast provides a maximum constant output for 1
