

## European Solar Energy Storage

# Seab energy Guadeloupe

## Overview

---

What is Seab energy?

SEaB Energy is taking urgent action to combat climate change and its impacts. SEaB Power; the leading small waste-to-energy product. Transforming your waste on-site to make energy and fertiliser. This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 968363.

Where is Seab commercializing the containerized energy from waste technology?

SEaB is commercializing the containerized energy from waste technology in the U.K., Portugal, France, India, Brazil, South Korea, Japan, and North America.

What does Seab do in Iraq?

SEAB holds an exclusive 25 years contract with N.O.C. (North Oil company) in Iraq to process accumulated petroleum waste (sloppy oil ponds) and deliver recovered crude oil while treating polluted soil, preparing it for agriculture use through bioremediation.

## Fully automated anaerobic digestion plant housed in 40-foot ...

The MUCKBUSTER from SEaB Energy (also known as the SEaB MB400) is a fully automated anaerobic digestion plant housed in a 40-foot shipping container. This technology has the potential to significantly increase market adoption for generating energy and income from food waste and other bio wastes directly at the sites of smaller waste producers.

## Anaerobic digestion technology, energy from waste, biogas

SEaB Energy manufactures award-winning waste-

to-energy technology. Our containerised Anaerobic Digestion units, the Flexibuster (TM) and Muckbuster ®, turn organic waste into energy exactly at the point where the waste is produced and the energy is required signed to be a modular and scalable technology, they are ideally suited to small and medium scale sites that ...
