## Zambia: Solar Power Fuels Better Health

To ensure a steady supply of electricity, a solar-powered energy system and an energy-efficient temperature control system were installed to power the 14,000 square meters of national medical warehouse space. With the solar panels in place, the warehouse runs effectively even when there is no power from the national electricity grid.

## Solar Sector Zambia

Zambia has a high potential for solar power and the sector is growing. Right now, Zambia mainly depends on hydropower, due to the large dams generating electricity in the country. Droughts made this electricity source less dependable and combined with the increase in electricity demand a new renewable source is desirable. The growth in solar

## Hello Solar Energy!
