Overview

What is the energy policy of Sierra Leone?

In the autumn of 2013 the Government of Sierra Leone issued a National Energy Policy and a Strategic Energy Plan for the coming years. Although fossil fuels will remain the main energy source for the country in the short-term, according to the policy, renewable energy sources will become more important in the future.

Is Sierra Leone a post-Ebola recovery pillar?

keen interest in the performance, availability and access to energy throughout Sierra Leone as a post-Ebola recovery pillar. The GoSL is targeting increased large scale energy generation, improved distribution and improved performance of the solar home system (SHS) energy market concurrently.

What is the Sierra Leone energy revolution?

At the start of 2016, Sierra Leone's Ministry of Energy and DFID organised the Sierra Leone Energy Revolution with support from Adam Smith International, SOBA and Power for All. The event was part of the UK's Energy Africa campaign which aims to help the continent achieve universal energy access by 2030.
