The names you know and trust like genesis, power and data safe etc. We guarantee that we have what you need to recharge and keep going with the broadest range of flood batteries, industry standard size, 100% capacity pure lead solutions.

"NEED DIY CAR BATTERY REPLACEMENT/PROCEDURE

With the car running it should be charging at 13.7 to 14.6 volts. If your battery is showing those numbers then I would just clean up the corrosion and leave it alone. If you need to change it, be wary of the intelligent battery

sensor (IBS) hooked to the negative battery terminal. It is easily broken and is a \$500 part to replace.

Cayman Islands Batteries from eCayOnline for all your Cayman Islands

All the battery suppliers in the Cayman Islands are listed here. Whether you'd like to: Replace your car battery at short notice; Provide for a worst case situation and have a stock of torch batteries on hand; Find a supplier of batteries for your digital camera; Ensure that your laptop battery does not fail just when you need it most
