Singapore green energy companies in europe

Overview

Can Singapore companies play a role in Europe's green economy?

Singapore companies can play in Europe's green economy space, as Europe's governments and companies are keen on the green transition, he said. The green economy includes the offshore wind sector, e-mobility, smart cities and agri-food tech.

Should Singapore companies invest in Germany?

Some Singapore companies have used acquisitions in Germany as their entry point into the continent. For Accuron's Mr Tan, Germany's strategic location in the middle of Europe makes it a good place to start the company's expansion into Europe.

Can Singapore start-ups enter Europe through Germany?

While big companies may be able to acquire small and medium-sized enterprises to get a foot in the European door, Singapore start-ups also have opportunities to enter Europe through Germany. EnterpriseSG runs a programme called the Global Innovation Alliance, which has networks in 21 cities globally, including Munich and Berlin.

Is Germany an innovation hot spot for Singapore firms?

Germany is an innovation hot spot that offers opportunities for Singapore firms in med-tech, climate tech, smart city and Industry 4.0 solutions, said Start2 Group's Linda Nguyen Schindler, who is director of the Artificial Intelligence Competence Centre, Asia.

Why should Singapore invest in Europe?

Europe has a large consumer base, which provides opportunities for Singapore's lifestyle products and services. In particular, Europe's consumers are ready for sophisticated products or those with sustainability attributes, Mr Yeo said.

Why should Singapore companies invest in technology?

Singapore companies can leverage the region's tech expertise and partner companies to acquire technologies. Sectors that hold promise include advanced manufacturing, healthcare, digitalisation and biomedicine, he added.
