### Sinochem oil energy storage project

In the late 1990s, with the reform of China's petroleum operating system, Sinochem Group accelerated the market-oriented transformation of its petroleum sector and decided to construct the Quanzhou Refinery Project for the purpose of making breakthroughs in the energy segment, fostering a strong support for its main business covering crude

### Sinochem International Unveils New Energy Base in Yangzhou

"The Yangzhou base is our key initiative in the new energy realm, and highlights our commitment to green and sustainable development." With the 20GWh production capacity planned in four phases, construction of the entire site is set to complete by 2025.

### Lithium Battery , Sinochem International

Sinochem International has established the R& D division dedicated to the research and big-data analysis for EV batteries, energy storage systems, battery cells, applied materials technology, frontier chemical systems and process technology.

## SINOCHM LITHIUM BATTERY

## ENERGY STORAGE ...

The energy consumption involved in industrial-scale manufacturing of lithium-ion batteries is a critical area of research. The substantial energy inputs, encompassing both power demand and energy consumption, are pivotal factors in establishing mass production facilities for ...

## Sinochem lithium battery energy storage

For grid energy storage applications, long service lifetime is a critical factor, which imposes a strict requirement that the LLZTO tube in our solid-electrolyte-based molten lithium battery must

## How about Sinochem's energy storage power station?

Aside from battery technologies, Sinochem also explores alternative methods of energy storage, such as pumped hydro storage and thermal energy storage. Each has its own set of advantages and operational efficiencies.

## Storage & Logistics

We operate six large storage facilities in Tianjin, Shanghai, and Jiangsu, Zhejiang, Guangdong provinces, with 393 storage tanks and a storage capacity of 5.12 million cubic meters. We also serve China's strategic oil reserve network.
