## Overview

---

How many workers absorbed by PT Indonesia BTR new energy material?

There will be 7,800 workers absorbed with the absorption of 6,000 local workers during construction, and 1,800 local workers when operating in the first and second stages. After officially operating, PT Indonesia BTR New Energy Material will produce 80,000 tons of anode material, while continuing to expand development at the same location.

What does BTR do?

This new facility addresses crucial gaps in the supply of lithium-ion battery anode materials in Indonesia and the ASEAN region, enhancing the new energy sector and upgrading industrial infrastructure in Indonesia. BTR is dedicated to reducing its carbon footprint and advancing clean energy.

Who is BTR new material Group Co Ltd?

BTR New Material Group Co Ltd is a manufacturer of cathode and anode materials for lithium-ion batteries. It is mainly engaged in graphite mining, graphite product manufacturing, and lithium-ion manufacture of positive electrode materials and negative electrode materials for batteries. Want detailed data on 3M+ companies?

.

Will BTR strengthen Indonesia's electric vehicle industry?

The President also welcomed the operation of this anode factory, which he said would strengthen Indonesia's electric vehicle industry. The production results from the BTR factory will be supplied to several brands such as BYD, SK Group, LG, Samsung, and various other leading companies.

What is BTR battery?

BTR has held the top global market share for anode materials for 14 years,

serving major lithium-ion battery manufacturers such as Panasonic, Samsung SDI, LGES, SKOn, CALT, and BYD. Its product portfolio includes natural and artificial graphite, silicon-based materials, and high-nickel ternary cathode materials.

Where does BTR manufacture lithium-ion battery anode materials?

KENDAL, Indonesia, Aug. 7, 2024 /PRNewswire/ -- BTR NEW MATERIAL GROUP ("BTR", 835185•BJ), a global leader in battery materials, has officially launched production at its new lithium-ion battery anode materials plant in Indonesia. This milestone, marking BTR's 24th anniversary, makes the facility the largest anode production site outside China.
