AI and blockchain make smart grids more useful to renewables

The integration of artificial intelligence (AI) and blockchain will drive smart grids closer to providing and monitoring renewable energy solutions, according to a new report from GlobalData, Energy Monitor's parent company. The Thematic Research: Smart Grid in Power report identifies technological trends and assesses benefits and threats to smart grids.

Wallis and Futuna

In 1991, BNP Nouvelle-Calédonie, a subsidiary of BNP Paribas, established a subsidiary, Banque de Wallis-et-Futuna, in the territory. Two years earlier Banque Indosuez had closed its branch at Mata-Utu, leaving the territory without any bank. Following this, the Bank of Wallis-and-Futuna (BWF) with its head office in Wallis was created in 1991.

Smart Grid Observatory

In this forum, we will officially launch the Smart Grid Observatory- India digital platform and synthesize knowledge from the respective panels in a way that will chart the way forward for the smart grid universe for India. More details will be made available soon More information. Currently, we are building this observatory and expanding upon

Maui Smart Grid Project, US

The Maui Smart Grid Project was completed using smart grid as the technology category. It is

an advanced grid infrastructure, advanced metering infrastructure, microgrid project with a rated capacity of 200MW. It is implemented in the islands. The smart grid project is owned by Hawaiian Electric and Maui Electric.

Smart grid in india , PPT

8. current grid system : In the present scenario, the power generation is localised and built around localities. This kind of an electrical grid is devised to cater for small energy demands. It is designed to deliver electricity to the consumers' residence and bill them once a month. The current grid is of a one way interaction format and hence makes it difficult for the ...

Smart grids: the consumer perspective

The development of smart grids promises to give consumers more control over their energy bills, as well as encouraging small-scale home-based renewable energy installations. But how do customers feel about smart ...
