O& M Best Practice Guidelines Version 5.0

Based on its 100% Renewable Europe study, SolarPower Europe calculates that an additional 870 GW of solar PV installations will be required for the EU to meet its 2030 emissions commitments. This rapid growth makes it even more important to ensure that industry best practices are harmonised, allowing O& M service providers to scale up their

eu-market-outlook-for-solar-power-2021-2025

SolarPower Europe's annual EU Market Outlook helps policy stakeholders in delivering solar PV's immense potential to meet the EU's 2030 renewable energy targets. Produced with the support of our members and national solar association, the Outlook demonstrates how solar energy can, and will, be the engine that drives the European Green Deal.

[100% Renewable Europe study](#)

Aristotelis Chantavas, President of SolarPower Europe, said: "A 100% renewable energy system enables the EU to become climate neutral before 2050, complying with the ambitious 1.5°C Paris Agreement target, and without resorting to carbon sinks. This Leadership scenario will also trigger the sharpest decline in GHG emissions, down to zero in 2040.
