## Overview

---

Solar power in Somalia is, in 2012, being considered for development in the near future. Two items that are being made available in seven other African countries in the "Light Years Ahead" program that are being considered are solar lanterns and solar street lights. India has a very successful solar lamp program. A solar lamp costs about the same as a few months of kerosene for.

### The utilization and potential of solar energy in Somalia: Current ...

In many countries, including Somalia, excessive reliance on fossil fuels is a serious concern. Continually, the desire to get relatively cheap energy by mainly burning coal is stronger than the desire to maintain a good state of the environment [[22], [23], [24]]. The study aimed to assess the status of solar energy utilization in Somalia, one of the world's least ...
