Discover the real cost of installing solar panels in Malaysia in 2025. Learn about pricing, incentives, and ROI for solar panels in Malaysia today.

This blog post breaks down the real pricing, what affects solar panel costs, available government incentives, and the return on investment (ROI) you can expect in 2025. What is the Average Cost of Solar Panels in Malaysia?

The average cost to install a residential solar system in Malaysia ranges.

According to the media statement released by the YAB Deputy Prime Minister and Minister of Energy Transition and Water Transformation (PETRA) on 27 March 2024, the government has introduced a specific incentive program to encourage the installation of solar PV systems for domestic consumers known.

With solar panels now more affordable than ever in Malaysia, businesses and homeowners are rethinking their energy strategies in 2025. The new electricity tariff structure implemented July 1, 2025, combined with enhanced Self-Consumption (SelCo) programme benefits, has made solar panel installation.

What is the cost of solar panel installation in Malaysia?

As of today, a typical residential solar system can cost anywhere from RM14,000 to RM46,000. The price varies depending on factors like the type of electricity supply, roof size, and most importantly, how much electricity you want to.
