## Overview

---

Where is a total solar eclipse in Iceland?

The Iceland Eclipse will be a total solar eclipse in the west side of the country, including Reykjavik, the Snæfellsnes Peninsula, and the Westfjords. Here's the map: (Source: National Solar Observatory.) Anywhere between the Red and Blue lines will see a total solar eclipse, where the moon completely blocks out the sun.

Will there be a solar eclipse in Iceland 2026?

Iceland Eclipse 2026- Visit Iceland with our (very) Small Group Tour! There's an eclipse coming to Iceland on August 12, 2026. The Iceland Eclipse will be a total solar eclipse in the west side of the country, including Reykjavik, the Snæfellsnes Peninsula, and the Westfjords. Here's the map: (Source: National Solar Observatory.).

Can you see the Northern Lights in Reykjavik?

Yes, you can see the Northern Lights in Reykjavik in some cases. However, when the lights are faint or low on the horizon, their visibility can be significantly reduced by the city lights and obstructed by buildings.

Can you see the Northern Lights in Iceland in April?

During the earliest parts of April, it is still possible to view the northern lights in Iceland. However, as the month progresses, it will be increasingly difficult to view them. By mid-April, the chances of capturing a glimpse of the elusive lights fade into oblivion.

How long does it take to see the lights in Iceland?

It is possible to capture a glimpse of the elusive lights in Iceland over the course of an 8-month period. Starting in September, the days begin to shorten and the nights become longer. This continues on until the peak of winter when the night lasts for nearly 24 hours each day.

Can you see the aurora borealis in Iceland?

However, remember that you'll also need plenty of luck to see the aurora borealis in Iceland (or anywhere else for that matter), as without clear skies this activity will be hidden from sight above the clouds.
