Solar hot water system price in Ireland

Overview

Thermal Solar hot water systems generally cost between €800 and €1,300 per square metre. The cost of a system has a significant effect on the payback period. How much does a solar water heating system cost in Ireland?

Solar thermal panels generally cost between €800 and €1,200 per square metre, but that price could be even lower now with changes to VAT for domestic solar. Grant funding is available from the Sustainable Energy Authority of Ireland for different solar water heating systems.

Can a solar heating system save you money in Ireland?

In Ireland, a solar water heating system can meet 50-60% of a household's hot water needs per annum, potentially saving homeowners hundreds of euros on their heating bills. Because this makes use of renewable energy in place of burning oil or gas boilers, it also helps homes to reduce their carbon footprint. How Much Do Solar Thermal Panels cost?

.

Do you offer solar thermal heating in Ireland?

We also offer a 3m 2 panel and either of these can be interconnected to make any size of panel providing economical hot water for houses, factories, hotels, swimming pools or any other application that requires hot water. Solar thermal heating is available to every house in Ireland! Every house should have one -really!.

Can a solar water heating system save you money?

A solar thermal water heating system uses the sun's energy to produce hot water for domestic consumption free of charge. In Ireland, a solar water heating system can meet 50-60% of a household's hot water needs per annum, potentially saving homeowners hundreds of euros on their heating bills.

What grants are available for solar water heating systems in Ireland?

Grant funding is available from the Sustainable Energy Authority of Ireland for different solar water heating systems. The SEAI grant has a fixed value of €1,200 regardless of the amount or cost of the solar thermal panels being installed.

Are solar thermal hot water systems a good choice?

You can see huge savings on your water heating bills, as much as 70% across 12 months. Our solar thermal hot water systems are one of the most popular choices for those who wish to see true savings on their energy bills and lessen their carbon footprint in the process.

Solar hot water system price in Ireland

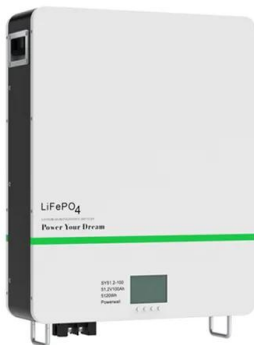

Solar PV Water Heating Systems , Comet Renewables, Galway, Ireland

Using your existing immersion heater and solar PV system we use a Solar PV Power Diverter to divert the energy from your PV system to your hot water tank. The power diverter 'boosts' your hot water tank according to your desired time setting. It can be applied to an existing Solar PV system or be incorporated into a new PV installation.
