Solar Leases vs. Solar Loans vs. Solar PPAs , Solar

Leasing Solar Panels or Buying Solar Panels? Buying is almost always the way to go. If you have enough savings or a HELOC, the cash purchase will save you the most over time, as it has the shortest payback period of any financing option. In lieu of this, a loan is a great option, as many financiers have created special solar loan options.

Government rebates and loans for solar , energy.gov

A loan allows you to borrow part or all of the cost of your solar system and/or battery. By reducing or removing the upfront cost, an interest-free or low-interest loan makes solar or a battery more affordable because it can be paid off more quickly, potentially using the bill savings it creates. Eligibility criteria for loans may relate to:

Solar Loans: Everything You Need to Know (2024)

Solar loans have the same basic features as other types of loans. As you compare your solar loan options, you'll want to consider all the features of the loan, including: Loan term: the length of your loan, which is usually anywhere from 10-20 years for solar loans. Most solar loans allow you to pay back your loan early without prepayment
