

European Solar Energy Storage

Solar panel 300w Turks and Caicos Islands

Overview

Can Turks and Caicos use solar power?

The Turks and Caicos Government and Fortis TCI are currently reviewing the electricity legislation to enable Turks and Caicos residents to use the solar power they produce to offset their power consumption (rather than sell everything back to Fortis at their pre-agreed rate).

Who provides electricity in Turks and Caicos?

Together, both companies provide electric power in Turks and Caicos to over 15,000 customers and are regarded as one of the most reliable electricity providers in the Caribbean. FortisTCI offers customized energy audits to help customers achieve greater energy efficiency and savings.

What solar products does Fortis TCI offer?

We specialize in the following solar products: solar hot water, solar pool heating, solar pool pumps and solar photovoltaic. Fortis TCI is the main power utility in the Turks and Caicos Islands. It is a privately owned company and services all of the inhabited islands within the Turks and Caicos Island chain.

My first build. Solar shed with EG4 3Kw

Using second hand Trina Solar 310w panels in a series of six mounted on the lean-to roof. This system is intended to power my greenhouse fans, heat mats, and workshop needs. Tomorrow is my first power up. Fingers crossed. The batteries are charged and waiting to be hooked up, but the panels won't be mounted to the lean-

to roof until January.
