## Solar panel for aircon and refrigerator Nigeria

### How many solar panels to run air conditioner?

The daily energy consumption of your air conditioner. The average amount of sunlight that your solar panels would receive daily. In other words, the higher the energy consumption of your air conditioner, the more solar panels you would need. Also, the less sunlight you get, the more solar power you would need.

### How Many Solar Panels For a TV and Fridge?

It is not practical to run a 110V fridge on solar panels alone, uses too much power. A 12V fridge is more ideal. To find out how many solar panels you need, add the total watts of the TV and the fridge. If your TV is 80 watts and the 12V fridge is 20 watts:  $80 + 20 = 100$  watts. You need a 120 watt solar panel to run these two appliances. You
