25 new 250w panels for \$` 1200? , DIY Solar Power Forum

\$50/panel for 250w panels isn't a great deal. I've searched across the country on marketplace and you can have used panels almost everywhere for about \$20 per 250w panel. Used vs new, at 11 years old, isn't going to make much of a difference. I have used 240w's that are 10 years old and still pull at nearly 100%.

Navigating distributed solar in 2025 amid Trump 2.0 , Solar Builder

This strong foundation is reflected in data from the Solar Energy Industries Association (SEIA), which reports that solar contributed 67% of all new electricity-generating capacity added to the U.S. grid in the first half of 2024. Domestic solar manufacturing, spurred by federal incentives, has quadrupled in recent years, positioning the U.S. to meet its solar ...
